**Attention : Mr. Seow Soon Yong Chief
Executive Officer Of
Yongnam Holding Ltd.**

**Subject: Second Bangkok International Airport Project (Suvarnabhumi Airport)
The Construction of Passenger Terminal Complex
Package 2 : Main Terminal Building, Sub-Contract no. ITO/TB/SCT/006
Testimony**

Dear Sirs,

It has been a pleasure working with your esteem company in the above challenging project in Thailand.

Despite the constraints of tight schedules and physical complexities, you have accomplished successfully the "Assembly and Erection of Pylon, Super Truss, Secondary **Truss**, Wings, Skylight and Trellis for the Main Terminal Building" with overall 40,000 tons of permanent structural steel work and 20,000 tons of temporary steel support structural works . The work has been executed to our complete satisfaction.

We want to thank you for your personal attention and unstinting cooperation that helped us out in a trying moment. The proficient performance and a very good cooperation by your project management team and experienced workforce are most **commendable**.

We will not hesitate to recommend your company for other international project of similar nature. We look forward to a continued mutually favorable relationship. In future, when we want a good structural steel job done, we will come to you again.

Yours faithfully,

Shiro Osada
Project Manager

For and on behalf of ITO Joint Venture
