RSP Architects Planners & Engineers (Pte) Ltd  
Yongnam Engineering & Construction (Pte) Ltd  
Kumagai Gumi Co., Ltd

### *Judges' Comment*

Solution appears to have evolved very much from the construction constraints, i.e. it was necessary to erect the Station Roof in a very short time over the operational tracks without disrupting the services. The team had restricted access to the site yet appear to have produced an extremely attractive and functional solution.
